Participation and Placement of the FEBRACE fair - Brazilian Science and Engineering Fair;

Participation and Prize of 3rd place and Regional Highlight - Google STARTUP Project 2019 and 2020;

- **THE PROJECT**

In 2019 was the start of the development of the BillyBuilder project, a platform that filters home service providers in the region with just one click. Being able to add and favor your favorite provider and have access to a chat with him to negotiate the budget and issue the invoice for the service provided. With this idea in mind, we made a prototype of this idea and with it we won the awards mentioned above. We are currently focused on launching this platform to the public and carry out the necessary updates and investments.

- **ADDITIONAL INFORMATION**

Availability for Immediate Start;

I consider proposals from other regions;

I accept Home Office, Integral, FreeLancer and Internship Jobs;

I accept to travel by the company.
